Town Manager Report

October 5, 2020

Maintenance & Infrastructure:

- We have just a few outstanding items at the Fire Station, outside of the fire protection issue to be discussed later tonight.
- Gravel Road grading is scheduled for this month.
- Regular roadside mowing is complete, with just a few town properties remaining and held until later in the season to benefit wildlife (the Fairgrounds and Landfill).
- The Beach is closed for the season with just some final cleanup items remaining. It's time to collect your canoes and kayaks if you rented a spot.
- Work is nearing completion on the Torsey Dam and Bridge project managed by H.E. Callahan. The concrete form work looks great and we are concurrently performing vegetation management and drainage work to protect our investment.

Transfer Station:

- **We are once again accepting plastic film at the Transfer Station!** Please remember to separate this material from your regular recycling.
- Please bring in your returnable bottles to help support our heating assistance fund!
- Don't forget that Sunday Summer Hours at the Transfer Station are done for the season, we've had a few people show up to find us closed.

Administration & Personnel

- We are still looking for fall help with leaf cleanup and other field work. Please spread the word and contact me if you are interested!
- The Town Office will be closed for Indigenous Peoples Day on Monday, October 12, 2020
- Absentee ballots are now available at the Town Office! You can request to have them mailed or you can pick them up in person.
