Town Manager Report

February 21, 2017

Solid Waste and Recycling:

- The Solid Waste and Recycling Committee is scheduled to meet at 5:30pm on March 22nd at the Fayette Central School. We will be discussing several topics, including the Interlocal Agreement, composting, and Transfer Station Hours.
- The Interlocal Agreement has been reviewed by attorneys from all three towns and approved in draft form by the Fayette Select Board. They have a special Town meeting on April 3rd to authorize their Select Board to enter into a final agreement.
- Wood ash is accepted at the Transfer Station but must be placed in one of the available ash bins. **Ash should never be put directly in the hopper.**

Maintenance & Infrastructure:

- Warmer weather has given us a reprieve from snow removal and the staff have been focusing on building maintenance, safety projects, and equipment maintenance.
- Bid documents for the Maranacook Lake Outlet Dam will be available this week.
- Local roads have been posted through April 30th. The postings will be removed sooner if conditions permit and special permission may be granted by the Road Commissioner for travel when the roads are frozen.
- We are making progress on a gravel road bid package and expect to put the work out to bid by the end of the month.

Personnel:

- We are looking for seasonal part-time grounds maintenance staff to assist with cemetery, grounds, and road maintenance.
- Congratulations to Robin Lint on renewing her status as a Certified Clerk of Maine, the highest certification available at the state level.

Announcements:

- The old 1987 fire truck has been paid for and removed from the station.
- We have two upcoming Public Budget Workshops on Wednesday, March 8th at 6:30pm and Monday, April 10th at 6:30pm, both at Gile Hall.
