Current & Budgeted Long-Term Debt Service

Municipal Budget Highlights

- Competing budget goals were considered
- Labor and materials cost inflation are the main drivers for increased operating expenses
- Community investment in a new Fire Truck is the primary cause of capital and debt service increases
- We have a net cost increase of about \$42,000
- After a pandemic dip, we are budgeting for a 4.0% Municipal tax increase in FY 2024 that puts us back to 2020 levels of municipal tax impact
- Municipal services are about 17% of the tax bill

Property Values and the Mil Rate

- Assessor recommends 15% factor applied to increase residential and commercial valuations
- 3rd year of factoring to match State valuation
- For the same amount of taxes, a 15% increase in value results in a 15% decrease in the mil rate.
- Factoring has not been applied, but will not substantively change the amount of taxes residents pay
- The estimated mil rate (on all taxes) is 15.83 and is expected to be around 14 after factoring
